Row 3: Ch 4, turn, sk last 4 dc, dc in next dc, 2 dc in next sp, dc in dc, 3 dc in next sp, ch 6, sc in 2 center sc, ch 6, 3 dc on left end of next 7-ch, dc in next dc, 2 dc in next sp, dc in next dc, dc in next third dc.

Row 4: Ch 4, turn, sk last 4 dc, dc in each of next 4 dc, ch 3, dtr in each of 2 center sc, ch 3, dc in next 4 dc, dc in next third dc.

Row 5: Ch 4, turn, sk last 4 dc, dc in next dc, 3 dc in next sp, ch 2, 3 dc in next sp, dc in next dc, dc in next third dc.

Row 6: Ch 4, turn, sk last 4 dc, dc in next dc, 2 dc in next sp, dc in next dc, dc in next third dc. Ch 5, turn, sk last 4 dc, sl st in next dc. Cut 2 inches long and pull through lp tightly. Sk next 7 sps down side, join to next dc, ch 4, sk 2 dc and repeat corner from *. Continue until 4 corners are completed.

Edge—Joining to one corner of block, * make 3 sc in corner sp, ch 4, sl st in last sc for a p, 3 sc in same sp, (2 sc, a p and 2 sc in next sp) 13 times, working over end left from

corner. Repeat from * around and join. Cut 6 inches long, thread to a needle and fasten off on back.

Make and join blocks to desired size by the ps at corners and by the 13 ps on each side. To join, in place of a p, make 2-ch, sl st in corresponding p on first block, ch 2, sl st back in last sc to complete p. Repeat with each p-joining.

Edge—Join to one corner, ch 4, sc in same p, * ch 4, sc in next third sc, (ch 4, sc in next p) 13 times, ch 4, sc in next third sc, ch 4, sc in joining of blocks. Repeat from * around, making an extra lp at each corner; fasten off.

Fringe—Cut a stiff cardboard 8 inches long. Wind thread 8 times around card and cut at one end. Double these 16-inch strands to form a lp. Insert hook up from underneath through a 4-ch sp on edge, catch lp and pull through, pass ends through lp and pull tight. Repeat in each sp around both sides and bottom of bedspread. Then knot together 8 strands of 2 adjacent knots, 1/2 inch down from first row of knots. Continue thus along entire fringe. Comb out fringe and trim evenly.

Stretch and pin right-side-down in true shape on a padded board or table, or on curtain or quilting frames. Steam and press dry through a cloth. If stretched on frames, lay over an ironing board, and steam and press dry in sections until completed.

COLONIAL GIRL WITH CROCHETED SKIRT

Lovely to look at and easy to make. This colonial girl is ideal for pillow slips; has a crocheted skirt with the pineapple motif. The ruffle may be crocheted or embroidered. We have used tatting thread and a number 12 crochet hook. The widest part of the skirt measures about 5½ inches. The length of skirt from waist to bottom of skirt is about 4 inches.

Abbreviations: Ch (chain); st (stitch); sk (skip); dc (double crochet); sp (space); lp (loop); tr (treble)—thread over hook twice and work off two lps at a time.

SKIRT—Row 1: Begin at top of skirt and ch 9, dc in third ch from hook, ch 2, 2 dc in same st, * sk 2 ch, shell (2 dc, ch 2, 2 dc) in next st; repeat from * once, ch 5, turn.

Row 2: * Shell over shell, with ch 1 between *, repeat from * to * twice (3 shells), ch 5, turn.

Row 3: * Shell over shell, ch 1, shell between shell, repeat from * until there are 5 shells, ch 5, turn.

Row 4: * Shell over shell, shell in ch 1, shell over next shell *; sk ch 1,

shell over shell, sk ch 1; repeat from * to * making 7 shells, ch 5, turn.

Row 5: Shell over each shell (7 shells), ch 5, turn.

Row 6: * Shell over shell, ch 1; repeat from * across (always 7 shells), end with ch 5, turn.

This row and the next five are worked alike, except that the ch between shells becomes one st longer with each row (ch 5 in row 10).

Row 11: Shell over shell, * ch 5, 2 dc in shell, ch 5, 2 dc in same shell, ch 5, shell over shell, repeat from * twice, ch 5, turn.

Row 12: Pineapples are begun in this row. Shell over shell, ch 3, * 12 tr in ch 5 lp, ch 3, shell over next shell, ch 3, repeat from * across, ending with ch 5, turn.

Row 13: Shell and ch 3 as before, tr separated by ch 1 in each tr across pineapple, (ch 3, shell, ch 3) between each pineapple, continue across and always end with 3 ch, shell, ch 5, turn.

Row 14: Shell over shell, * ch 3,

sc in each sp below, repeat across pineapple, ch 3, shell over shell, repeat from * across pineapples, ending with ch 3 and shell; ch 5, turn. In this and succeeding rows there are loops of ch 3, sc in each space below. Continue through row 17, each time decreasing the number of loops.

Row 18: Continue as before, but add ch 2, 2 dc, ch 2 between two center shells. This makes the beginning of division of the shell paths between pineapples.

Row 19: Expand both inside shell paths to 2 shells separated by ch 3 between; increase this ch in each successive row to 5, 7, 9, which should come in row 22.

Row 23: Shell, (ch 3, sc) twice, ch 3, shell, ch 5, turn.

Row 24: Shell, ch 3 to tip space, ch 3, shell, ch 5, turn.

Row 25: Shell over shell twice, ch 3, sl st over end st of two rows below,

ch 5, sc in each ch 5 lp along each shell with ch 1 between.

This makes an edge and insertion along the top of ruffle for a ribbon if desired.

Arrange pattern given here in center of pillow slip and trace upper portion of body. Place top of crocheted skirt on dotted lines. Fasten with sewing thread along the edges. Cut away material to waistline and make a narrow rolled hem. Work body in outline stitch.

Place floral spray on either side of body. Embroider in lazy daisy and outline stitch or in satin stitch with French knots, using any colors to harmonize with your color scheme.

MEDALLION TABLECLOTH

The blocks for this tablecloth are crocheted of size 30 mercerized crochet thread. The medallions are joined by picots. Each measures about 4½ inches square and requires approximately 40 yards; use a size 11 crochet hook. The pattern is a simple one and it makes good pick-up work. Any size cloth may be made. It could also become a table or radio runner, vanity or chair set, or even a bedspread if a heavier thread and a coarser hook are used.

Crocheted Sandals

Comfy and cozy are these crocheted sandals. Make a pair in a jiffy for that last minute gift. The wedge type soles are made of rug yarn and the top of knitting worsted. Commercial type soles are available in most variety stores or you may use old soles from worn-out shoes. For one pair of slippers, you will need approximately 180 yards of rug yarn for the soles and two ounces of knitting worsted for the top. We have made the top of the sandal in white and soles black but other color combinations may be used, such as black and red, blue and orange or wine and rose. Use a size 00 crochet hook for both rug yarn and knitting worsted. For a smaller size make the beginning chain 3 or 4 stitches less than the one given for top of sandal. A nice trim may be acquired by making the rows of loop stitch in contrast, or with angora.

Row 19: Make lp st in each sc across row, ch 1, turn. Lp st is described under abbreviations.

Row 20: Sc in each st across, inc one st in 8th sc from each end.

Repeat row 19 and 20 twice. Work one more row of lp st and fasten off. Make a second vamp.

Straps—Ch 25, sc in second ch from hook and each ch across, ch 1, turn. Sc in each sc across. Leave an 8-inch length of yarn to sew on straps. Make 4 of these straps. Sew one end to the vamp one inch from sole, the other end 1 1/2 inches from center back to the

same side of sole. Attach other side to correspond.

Cut a 2 1/2 inch piece of 1/4 inch elastic. Join straps in back with elastic,

1 1/2 inches from heel end to form a back sling. Cover elastic with 20 sc; fasten off.

Slip stitch, sew or single crochet the vamp to the sole leaving 10 sts (or fewer sts if a smaller opening is desired) of sole for opening of toe.

WEDGE SOLE—Row 1: In rug yarn, make a tight ch two inches shorter than length of foot, 3 dc in 4th st from hook, dc in each of next 2 sts, hdc in each of next 3 sts, sc in 1/3 of remaining sts, hdc in 4 sts, dc in each st to third from end, 2 dc in next st, 1 hdc in next, 5 sc in end st. On other side of ch, make 1 hdc in next st, 2 dc in next st, dc in same number of sts as on other side, hdc in 4 sts, 1 sc in each st to 7th st from end, hdc in each of next 3 sts, dc in each of next 2 sts, 3 dc in next st (at base of shell on other side), sl st in top of first 3-ch.

Row 2: In both lps, (2 sc in next sc) 3 times, make 1 sc in each st around with 3 inc around toe, make 2 sc between incs. (To inc, make

2 sts in 1 st). Make 2 incs at end of row.

Row 3: Make an inc in next (center end) st, sc in next 2 sc, an inc in next st, 1 sc in each st along side, putting 5 incs around toe with 1 sc between incs. Then sc around to end of heel with 1 inc on side and 1 inc at center end.

Row 4: (Sc in each of next 2 sc, 2 sc in next st) twice, work sc around with 5 incs around toe, making 2 sc between incs. Make 2 incs on side of heel.

Row 5: One sl st in each st around, join and fasten off.

HEEL LIFT—Row 1: Make a ch a little over half as long as first ch made, sk 4 sts, hdc in each of next 4 sts on ch, sc on ch to end st, 3 sc in end st, sc back on opposite side of ch to 5th st from end, 4 hdc and 1 dc in each of next 5 sts.

Row 2: Ch 1, turn and sc around with 3 incs around heel, 1 sc between incs. Repeat this row 3 times; fasten off.

Make a second sole and sew on top of lift and first sole through 1 lp of each st. Steam and press dry through a cloth.

Place a milk cap on top of paraffin before it hardens and you will have no trouble in removing it from the top of a jelly glass.

FILET CHAIR SET

This daffodil chair set is worked in filet crochet and is one that you will treasure always. It could become a vanity set and by repeating the design it could become a buffet or dresser scarf. The large piece measures about 18 inches long and 13½ inches wide; the smaller pieces are about 7 x 10 inches. The original was made of size 20 mercerized crochet thread and a size 7 or 8 crochet hook. It can be made of a heavier thread and a larger size crochet hook.

For a foundation ch, make three times as many stitches as there are to be squares, plus 1, plus the necessary sts to turn; turn and work according to pattern. In following rows, the blocks and spaces are worked over those of the previous row. A sp is formed by a dc, ch 2, sk 2 sts of previous row, dc in third st. A bl is composed of 4 dcs. If worked over a sp, a dc is made in the dc of the previous row, 2 dcs are worked over the next 2-ch, dc in next dc. In working 2 or more adjoining bls, there will be 4 dcs in the first bl and 3 dcs in each additional bl.

Chart: The open squares on filet chart indicate spaces and the solid squares indicate blocks.

General Filet Directions

Filet crochet is composed of spaces and blocks or open and solid squares. A foundation ch is made into which blocks or spaces or both are worked.

Abbreviations: Ch (chain); st (stitch); sp (space); bl (block); dc (double crochet); sk (skip); sc (single crochet).

Tatted Edging and Insertion

This insertion and edging may be used on hand towels, pillow slips, handkerchiefs or as a trim on blouses and dresses. The insertion is approximately 1½ inches wide; edging is about 1¼ inches wide. Each is made of about size 30 cotton thread. If a finer thread is used, a finer and narrower edging and insertion will be attained. Use ball and shuttle.

Abbreviations: R (ring); ds (double stitch); cl r (close ring); ch (chain); r (ring); rw (reverse work).

Knitted Lace

This unusual lace edge is knitted and can be used for many purposes, such as an edging on pillow slips, dresser or buffet scarfs, or luncheon cloths. It can be made of mercerized thread or yarn according to the use. If made of 3-ply fingering yarn and size 3 knitting needles, the edging will measure about 2¼ inches in width. When number 30 crochet thread and number 14 needles are used, the edge will be about an inch and a half wide.

Abbreviations: K (knit); tog (together); O (yarn over); sts (stitches).

- Cast on 13 sts. Row 1: K 2, O, k 2 tog, k 2, (O, k 2 tog) 3 times, O, k 1.
- Row 2: K 11, O, k 2 tog, k 1.

- Row 9: K 2, O, k 2 tog, k 13.
- Row 10: Bind off 4 sts knitwise, k 9, O, k 2 tog, k 1.

This completes one point; repeat these 10 rows for desired length.

This same edging can be made by

casting on 12 sts. There is less plain knitting with the 12 sts.

- Row 1: K 2, O, k 2 tog, k 1, (O, k 2 tog) 3 times, O, k 1.

- Row 9: K 2, O, k 2 tog, k 12.
- Row 10: Bind off 4 sts knitwise, k 8, O, k 2 tog, k 1.

These 10 rows complete one point; repeat for as many points as desired.

Aunt Ellen's CLUB NOTES

WHAT CLUBS ARE DOING

"The day of our bazaar is always a very gala one because the whole community looks forward to this occasion", writes one sponsor of an Aunt Ellen Club. It is an all day affair with a luncheon served at noon. In the afternoon a food sale is held and also the fancy work is displayed and auctioned off.

These are quilting days for many Aunt Ellen clubs. Afternoon meetings and all day sessions are both popular. These are usually held in the homes, church basements or club rooms. Quilting is done for individuals and for organizations. Oftentimes the members will piece and quilt a quilt for display in a local store; it is auctioned off or some groups even sell chances. This is a good way to raise money.

"Birthday Teas" are celebrated by one group of Aunt Ellen's Needlework lovers. Usually 3 or 4 members go together to put on the tea. There is always a donation table and it has been found that home baking sells best. These "Teas" have proved very successful.

Home canning and freezing of meats was the discussion at another club meeting. A member of the local Extension Service was present to aid in the discussion and answer questions.

Several months ago each member of an Aunt Ellen Club exchanged two favorite recipes with other club members. There were recipes for cakes, candies, cookies, salads and many other foods. This led to their printing a

cook book which contained a variety of recipes. They have sold enough books to pay for the expense of printing it and are now looking forward to making some money.

One club is keeping a scrap book and records of all the good times, including picnics, parties and other social events that have taken place since the organization of their Aunt Ellen Club.

ROLL CALL SUGGESTIONS

1. Name a flower that you like best for an inside window flower box.
2. Give your favorite candy recipe.
3. Have each member submit a way to increase the treasury fund.

DECORATIONS AND REFRESHMENTS

If you wish to send invitations to all the club members for a St. Patrick's party, make them from green paper cut into spade, club, heart and diamond shapes. Decorate the hall or room with large green shamrocks, white and green streamers, green and white balloons. Fortune telling, music and songs belong to an Irish party.

Serve refreshments which are in keeping with St. Patrick's colors. A fruit salad molded in green or lime gelatine served with cookies which have green frosting would be very

nice. Or you may wish to serve sandwiches that have green fillings. Coffee, tea or cocoa may be served also. For added color serve the food on green paper plates with fancy doilies, green paper cups and napkins.

RECREATIONAL HOUR

Snake Contest—Have these typed or written on slips of paper, pass one to each guest, or you read them aloud and have the guests just write the answers down.

1. Worn by women in the winter. (Boa)
2. Worn the year around. (Garter)
3. A babies toy. (Rattle)
4. A color. (Black)
5. Worn by an Indian. (Moccasin)
6. A fast horse. (Racer)
7. A gentleman cow. (Bull)
8. Necessary to life. (Water)
9. Term used during the Civil War. (Copperhead)
10. It makes the lawn. (Grass)

Word Contest—Give the guests five minutes to see how many words they can make from the letters found in POTATO.

Irish Stew—Select a number of raw vegetables, some unusual ones, and place them in a large bowl. Pass this around to all guests, giving each a few minutes to examine the contents. Then have each one write on a sheet of paper the names of the vegetables in the "stew." The one who guesses the most wins. This game may also be played by blindfolding the guests. Let each handle the vegetables and then ask them to try and list the vegetables which were passed. Give the winner the bowl of vegetables as a prize.

PROGRAM SUGGESTION

HOME SAFETY

Statistics show that approximately one-third of all the accidental deaths occur in the home. Safety mindedness of homemakers can never be stressed too much. Homemakers are always on the alert for information which will aid them in improving their home and community life for safer living. If people would actually realize the seriousness of home accidents, everyone would be more concerned and help to remove any safety hazards.

There is much research going on today to aid homemakers in lowering the number of accidents in the home. A knowledge of how accidents occur and understanding of the ways to prevent them through the removal or correction of causes is of great value to all individuals.

The American Home Economics Association has set up plans for a nation-wide program. This group is receiving the assistance of the National Safety Council, the safety division of the American Red Cross, and other groups interested in safety education. Teachers in the schools are being urged to pass safety information to the home by means of the students in their classes.

The Home Demonstration Agent of the Farm Bureau in your community will probably be glad to attend your next meeting and give a talk on safety in the home. This safety information to the homemakers is usually given through demonstration; perhaps as a part of the food preparation program. For instance, she might demonstrate the safe techniques of canning and the

safe use of the pressure canner. Then there is the care in handling hot liquids, foods and equipment. The use of pan holders and safety gadgets to avoid burns, scalds and cuts. Packing of food in the jars requires special precautions in order to avoid breakage. The processing directions of the manufacturer should be studied and carefully followed.

The Home Demonstration Agent also has promoted the use of home accident check lists. Committees are organized to inspect homes and make suggestions that will eliminate hazards in the home and make it a safer place to live. Excellent co-operation has been given to all these fine organizations.

Through demonstrations and exhibits, skits, quizzes, assembly programs and home projects, your club can do much in preventing the suffering and tragedy that accidents bring.

A few minutes spent in checking ways to prevent home accidents can save valuable time and energy. Here are some questions in regard to safety measures in and about your home. Provide each member with a piece of paper and pencil. Let her answer these questions yes or no.

1. Do you make sure that matches are out before throwing them away?
2. Do you have metal containers for storage of oil mops, dust cloths, painting equipment, and other oily materials?
3. Do you store kerosene and gasoline in special, clearly marked containers outside of the house?
4. Are marbles, needles and other small or sharp objects kept away from young children?
5. Do you wear simple clothing, free from drooping sleeves, sashes or frills, while doing housework?
6. Are children given only blunt-end scissors for cutting paper and cloth?
7. Are window screens and storm

windows fastened securely?

8. Are guns unloaded and stored in locked cases immediately after use?
9. Does the fireplace screen fit snugly?
10. Do you avoid touching electrical fixtures or appliances when your hands are wet, or when you are standing on a wet floor?
11. Do you use a can opener that does not leave a sharp edge on the can?
12. Are pan handles turned away from the stove edges?
13. Are knives and sharp instruments kept out of reach of children?
14. Are stairs and halls kept free from boxes, toys, mops, brooms, tools and other tripping hazards?

CHIP CARVING

Chip carving may have originated in the South Sea Islands, in China or Japan, or it may have been discovered by the people of Scandinavia or the Balkans. There is no absolute known place where it originated but we do know that it is a very old craft and that it is found on products of all of these countries. The northern countries of Europe, Ireland and England in particular, are probably more responsible for its influence upon our craft here in America. Its influence was transmitted to this country largely through various craft schools.

Chip carving occupies a rather limited field in the realm of wood carving. It is used to enrich plain surfaces. Primitive people applied scratches and incisions as a method of embellishment upon the wooden surfaces. The ceremonial adze handles and paddles produced by the primitive people of the South Pacific Islands are really wonderful examples of chip carving. The patterns were all-over designs which were cut deep. A piece of shell or a shark's tooth was used as a cutting tool.

This is not a difficult craft and you will enjoy the satisfaction derived from working with it. Soft woods are best to use. Poplar is a very good wood to use because it is light in color and is easy to cut across the grain. You will find that the design shows up well and that it gives the necessary contrasts of shadows caused by the cuts. Poplar offers little resistance to the cutting tools. Basswood or white pine are also good.

The equipment needed for chip carving is: a sharp knife or skew chisel, mallet, emery stone and a piece of fine sandpaper. If working with a board, you will need a screw clamp or other means of holding the board. The skew chisel is shaped as shown in illustration (Fig. 1). The cutting edge

of the chisel is in the center of the blade, making it possible to use both right and left cutting strokes. Use the stone to keep it well sharpened, for if the edge is dull, it will tear the wood, making rough, uneven cuts.

First, plan and draw a simple design on paper, then transfer to the wood with a pencil. When making a design for chip carving it is well to remember that the pattern has to form an angle or curve which has one side lower than the other and forms a point or edge up and down. But for practice, first draw a one inch square on piece of wood with a ruler, then draw lines across diagonally as shown in illustration (Fig. 2a). Cut down vertically into wood on diagonal lines (Fig. 2b); hold knife at about a 25 degree angle and cut (Fig. 2c), slanting from edge of square to the vertical cut lines. The point of the knife should be at the deepest part of the incision made. Care must be taken to hold the knife vertical and make the stab coincide with the lines of the pattern. To remove the chip, the knife is held as shown in sketch with the thumb firmly on the work (Fig. 2d),

which serves as a sort of pivot on which to swing the hand while forcing the blade of the knife or chisel under the chip.

After you have tried this several times, you will find that it becomes easier each time with practice and soon you can make a simple border design if you wish. Cuts may be deepened by striking the chisel perpendicularly to the surface of the wood. You will also find several variations of the square shown in Figure 3.

Variations of the Square

Small chips in straight grain wood should be removed with one cut; larger or curved ones or those in crooked grain may require two or more cuts to remove the chip smoothly. A

smooth, crisp, clear-cut chip is the best to be attained. But these are achieved only by practice. Figure 4 shows a variety of articles that may be made.

Carved wood may be stained or dyed. If a two-tone design is desired, stain the wood before carving. You may use Crayonex as a stain. Rub surface of wood with it, then take a soft cloth, dip it in turpentine and rub briskly. Color may be added for jewel like appearance also by using textile paints, water colors or tempera paint. If tempera is used, a coat of shellac or lacquer is needed. Another stain that may be used is a mixture of turpentine and oil paints. Use enough turpentine to make a very thin solution. Oils are probably more durable than other paints. If a higher gloss is desired, add a coat of clear varnish or shellac. Varnish gives a high gloss and satin finish. Clear shellac gives a good permanent finish.

You may simply apply liquid wax to the curved surface with a soft cloth. This is particularly good if you wish a dull finish. Waxes may also be brushed on or polished with a shoe

brush. Linseed oil gives a durable finish if rubbed well with a cloth, and several applications are given. Allow as long as a week between each application for the oil to harden.

Chip carving can not and should not

be hurried. The wood must be smooth and clean before it is finished. If a surface needs sandpapering after it has been carved, this should be done carefully with fine sand paper wrapped tightly around a smooth flat block; move in the direction of the grain.

HANDKERCHIEF EDGES

Dress up your handkerchiefs with any of these lacy crocheted edges. These were made of American Thread Company "Star" Tatting Cotton. A heavier thread and a coarser hook may be used for wider edges which may be used on towels. A crochet hook size 13 is used for all the edges given.

Abbreviations: Ch (chain); sc (single crochet); sp (space); sk (skip); sl st (slip stitch); lp (loop); dc (double crochet); dc cluster (double crochet cluster)—work as many dcs as specified only hold last lp of each dc on hook, thread over and draw through all lps at once, thus a cluster is formed; tr (treble)—thread over hook twice, work off 2 lps at a time; tr cluster (treble cluster)—work as many trs as specified holding last lp of each tr on hook, thread over and pull through all lps at once, thus a cluster is formed; tr tr (triple treble)—thread over hook four times, work off 2 lps at a time.

Edging Number 1—This edging requires about two 60-yard balls of white tatting thread and one 9¼ inch hemstitched handkerchief. A larger

size may be used if desired, but will require more edging motifs.
